PROFESSIONAL SUMMARY

Full-Stack Developer passionate about building scalable web applications using modern frontend and backend technologies. Experienced in developing responsive user interfaces, integrating RESTful APIs, and writing clean, maintainable code. Eager to contribute to engineering teams and deliver reliable, user-focused software.

TECHNICAL SKILLS

Languages & Databases: JavaScript, TypeScript, C/C++, Python, MongoDB, SQL (MySQL), HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Redux Toolkit, React Router, React Hooks, Tailwind CSS

Tools & Platforms: Git, GitHub, Firebase, Parcel, Vite, Power BI, MS Excel

Concepts: REST APIs, State Management, Memoization, Component Architecture, Responsive Design, DSA

PROJECTS

• **picoLink** — Full-Stack URL Shortener | *React.js, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB* | [Live](#)

- Engineered a full-stack link-shortening platform with a **React + TypeScript** frontend and a **Node.js/Express** REST API backend, generating short codes with **nanoid** and persisting data in **MongoDB (Mongoose)**.
- Implemented secure **JWT authentication** with **bcrypt** password hashing and cookie-based sessions for per-user link management.
- Built **click analytics** by logging timestamped visit history per link, giving users visibility into engagement over time.
- Designed a responsive UI with **Redux Toolkit**, **React Router**, and **Tailwind CSS**, integrated with the backend via **Axios**.

• **NetflixGPT** — AI-Driven Movie Discovery | *React.js, Redux Toolkit, Gemini API, Firebase* | [Live](#)

- Built a movie platform with **AI-powered search** using **Google Gemini API** for personalized recommendations.
- Implemented **Firebase Authentication** for secure login and real-time session management.
- Managed global state with **Redux Toolkit** and optimized performance via memoization to reduce API calls.

• **Gulab Jaamun** — Food Ordering App | *React.js, Redux Toolkit, Tailwind CSS, Parcel* | [Live](#)

- Developed a responsive food ordering app using **Custom Hooks** for modular architecture.
- Built real-time **cart management** with **Redux Toolkit** and **Shimmer UI** for better perceived performance.
- Configured **Parcel** build pipeline for optimized bundling, code-splitting, and hot module replacement.

EDUCATION

Maharaja Agrasen Institute of Technology

B.Tech in Electronics & Communication Engineering | **CGPA: 7.38**

Delhi, India

Aug 2022 – May 2026

Greenfields Public School

CBSE Class XII | **Aggregate: 80%**

Delhi, India

2021

VOLUNTEER EXPERIENCE

- **Core Organizing Team** — Kartavya Fest: Managed event logistics and cross-team coordination promoting NCC values.
